Care through the Continuum

Presentation by:

Dr. Peter Rhee

Professor of Surgery, Chief of Trauma, Critical Care & Emergency Surgery, University of Arizona Medical Center, Tucson, Arizona

VIP Trauma: Managing the Media in a High Profile Event

After the 2011 Tucson shooting that involved multiple victims, including US congresswoman Gabrielle Giffords, Dr. Rhee held daily press conferences to update the public on the condition of the survivors. As the subject of national media attention, Dr. Rhee will discuss the challenges of keeping the public informed during a highly publicized event.

Pre-Conference Workshop: Burn Care for the Rural Provider

Presentation by: Dr. Neil MacIntyre, Sr.

Professor of Medicine, Division of Pulmonary and Critical Care Medicine, Duke University Medical Center, Durham, North Carolina

Post Resuscitation: Critical Care of the Trauma Patient

Dr. MacIntyre will describe ongoing trends and innovations in ventilator support as well as strategies for managing patients requiring prolonged mechanical ventilation.

Presentation by:

Mr. Jeff Hamilton

Emergency Management, Regional Manager, Saint John's Mercy Medical Center, Joplin, Missouri

Joplin Missouri Tornado Destruction

Mr. Hamilton will describe the devastating effect and responsiveness of the local medical community when tornadoes raged through Joplin Missouri destroying the local hospital.

Presentation by:

Dr. Lawrence Dauer

Assistant Attending Health Physicist, Memorial Sloan-Kettering Cancer Center (MSKCC), New York

Fukushima: Lessons Learned

Dr. Dauer will discuss the Fukushima Daiichi Nuclear Power Facility with special emphasis on preliminary lessons learned from the disaster and healthcare implications from the standpoint of emergency preparedness and response.

Symposium Location:

Wilmington Convention Center
515 Nutt Street—Wilmington, NC 28401

23rd ANNUAL ^{& Emergency} TRAUMA SYMPOSIUM

February 10 & 11, 2012
Wilmington, North Carolina

Faculty & Presentation Summaries

Day 1: Friday, February 10, 2012

8:00–12 noon **Randy D. Kearns, MSA, DHA(c), CEM**

State Burn Disaster Coordinator; University of North Carolina, School of Medicine, Chapel Hill, North Carolina

Pre-Conference: Burn Care for the Rural Provider

There is no additional registration fee to attend this Pre-Conference Workshop. Space is limited.

Responding to the burn injured patient requires a unique skills set and knowledge base for optimum patient outcome. This program is designed to provide the rural care provider with a base knowledge and skill set that will assist them with caring for the burn injured patient for the first 4-6 hours post event.

1:15–2:00 pm **Peter Rhee, MD, MPH, FACS, FCCM**

Professor of Surgery, Chief of Trauma, Critical Care & Emergency Surgery, University of Arizona Medical Center, Tucson, Arizona

VIP Trauma: Managing the Media in a High Profile Event

After the 2011 Tucson shooting that claimed multiple victims, including US congresswomen Gabrielle Giffords, Dr. Rhee held daily press conferences to update the public on the condition of the survivors. As the subject of national media attention, Dr. Rhee will discuss the challenges of keeping the public informed during a highly publicized event.

2:00–3:15 pm **Jeff Hamilton, RN, BA**

Emergency Management, Regional Manager, Saint John's Mercy Medical Center, Joplin, Missouri

Joplin Missouri Tornado Destruction

Mr. Hamilton will describe the devastating effect and responsiveness of the local medical community when tornadoes raged through Joplin Missouri destroying the local hospital.

3:30–4:15 pm **Joseph Zalkin, EMT-P**

Chief, Office of Professional Development & Preparedness, Wake County EMS, Raleigh, North Carolina

NC Ambulance Strike Team

Mr. Zalkin will present the status and future of the NC Ambulance Strike Team program, review prior deployments and discuss opportunities as well as best practices.

4:15–5:15 pm **Lawrence T. Dauer, PhD, CHP**

Assistant Attending Health Physicist, Memorial Sloan-Kettering Cancer Center (MSKCC), New York; Chair of the MSKCC Emergency Management Committee; member of the International Commission on Radiological Protection Committee 3 on radiation protection in medicine

Fukushima—Lessons Learned

Dr. Dauer will discuss the Fukushima Daiichi Nuclear Power Facility with special emphasis on preliminary lessons learned from the disaster and healthcare implications from the standpoint of emergency preparedness and response.

23rd ANNUAL *& Emergency* TRAUMA SYMPOSIUM

February 10 & 11, 2012
Wilmington, North Carolina

Faculty & Presentation Summaries

Day 2: Saturday, February 11, 2012

8:15—9:15 am **Peter Rhee, MD, MPH, FACS, FCCM**

Professor of Surgery, Chief of Trauma, Critical Care & Emergency Surgery, University of Arizona Medical Center, Tucson, Arizona

New Concepts in Trauma Resuscitation

Dr. Rhee will kick off the main day by presenting new strategies in caring for the severely injured patient including new developments in fluid resuscitation and hemorrhage control.

9:15— 10:00 am **Neil MacIntyre, Sr., MD**

Professor of Medicine, Division of Pulmonary and Critical Care Medicine, Duke University Medical Center, Durham, NC. Dr. MacIntyre is a leader in critical care medicine, particularly in the area of ventilator support. He is well published in Pulmonary and Critical Care as well as a renowned speaker recognized both nationally and internationally.

Post Resuscitation—Critical Care of the Trauma Patient

Dr. MacIntyre will describe ongoing trends and innovations in ventilator support as well as strategies for managing patients requiring prolonged mechanical ventilation.

10:15—11:00 am **William W. Hope, MD**

New Hanover Regional Medical Center/South East Area Health Education Center; Department of Surgery, Director of Surgical Education; University of North Carolina School of Medicine, Assistant Professor of Surgery

“Hope” for the Unexpected Survivor

Effective team work and state-of-the-art techniques are key factors in increasing trauma survival rates. Case studies, including the indicators and outcomes of unexpected survivors, will be reviewed.

11:00—12 noon **Richard M. Satava, MD, FACS**

Professor, Department of Surgery, University of Washington Medical Center, Seattle, Washington

Revolutionary Surgical Technologies

Dr. Satava will take us on a futuristic journey into the world of advanced surgical trauma modalities. Learn what the operating room of the future holds for victims of injury in need of life saving surgery.

23rd ANNUAL ^{& Emergency} TRAUMA SYMPOSIUM

February 10 & 11, 2012
Wilmington, North Carolina

Faculty & Presentation Summaries

Day 2: Saturday, February 11, 2012

Hospital Track

Room 106

1:30–2:15 pm John C. Liguori, MD

Medical Director, Coastal Rehabilitation Medicine Associates/Independence Back Institute, Wilmington, North Carolina

A Survivor's Story

Dr. Liguori will tell the life recovery story of a trauma patient who against all odds made the incredible journey to recovery.

2:30–3:15 pm Renae E. Stafford, MD, MPH

Director of Surgical Critical Care, Assistant Professor of Surgery, UNC Department of Surgery, Chapel Hill, North Carolina; member of the American College of Surgeons of Palliative Care Taskforce and has both a clinical and research interest in palliative care education for nurses and residents in training.

Palliative Care Strategies for the Trauma Patient

Dr. Stafford will discuss the emerging field of palliative care as well as the principles of palliative care and how it can be integrated with trauma care.

3:30–4:15 pm John K. Petty, MD, FACS

Assistant Professor, General Surgery at Wake Forest School of Medicine, Winston-Salem, North Carolina

Staying Grounded when the Child is in Shock: Resuscitating the Critically Injured Child

Although children are susceptible to the same mechanism of injury as adults, a child's physiologic responses to trauma are unique. Dr. Petty will discuss specific considerations and challenges in managing an injured child in shock.

4:30–5:15 pm Robert A. Bashford, MD

Professor of Psychiatry, Professor of Obstetrics and Gynecology and Dean of Student Affairs, UNC School of Medicine, Chapel Hill, North Carolina

If You Can't Take a Joke...

Dr. Bashford will discuss the importance of using humor in the highly stressful occupation of the professional caregiver.

23rd ANNUAL ^{& Emergency} TRAUMA SYMPOSIUM

February 10 & 11, 2012
Wilmington, North Carolina

Faculty & Presentation Summaries (continued)

Day 2: Saturday, February 11, 2012

Pre-Hospital Track

Room 107

- 1:30–2:15 pm** **Claire Corbett, MMS, NREMT-P**
AMI and Stroke Programs Manager, New Hanover Regional Medical Center, Wilmington, North Carolina
Kathleen Wiese, DO
Stroke Medical Director; Neurology, Wilmington Health Associates; Wilmington, North Carolina
Systemized Stroke Care: Lessons Learned from Trauma
Dr. Kathleen “Kate” Wiese & Claire Corbett will cover implementing stroke systems of care, best practices, and lessons learned from trauma systems of care.
- 2:30–3:15 pm** **Brent Myers, MD, MPH, FACEP**
Medical Director, Wake County Department of EMS, Raleigh, North Carolina
Pre-Hospital Hypothermia Treatment
Dr. Myers will present the success of pre-hospital hypothermia treatment for patients in cardiac arrest. He will continue to build on where the research is leading and what implications this may have for the treatment of trauma patients.
- 3:30–4:15 pm** **Bradley Dean, NREMT-P**
Emergency Services Training Officer, Rowan County Emergency Services, Salisbury, North Carolina
Emergency Response for Drowning
Mr. Dean will discuss the different effects of near drowning for fresh and salt water incidents and provide an overview of our areas most common water related injuries using data from the NC Trauma Registry.
- 4:30–5:15 pm** **Josh Labeda, EMT-P, BS**
Paramedic, New Hanover Regional EMS, Wilmington, North Carolina
Bath Salts: A New Designer Drug Trend
Will include a background of where designer drugs have come from and are going. Bath Salts and their related compounds will be discussed in detail. General structural and chemical information will be provided to include patient presentation, treatment options and long term effects (physiological and psychological).

23rd ANNUAL ^{& Emergency} TRAUMA SYMPOSIUM

February 10 & 11, 2012
Wilmington, North Carolina

Course Information

Course Description:

Due to updates and improvements in practice, health care providers require on-going education in the clinical management of trauma patients. Because trauma experts typically experience a component of the entire continuum of care, this educational activity will allow participants to view cases from start to finish so that they realize ways that various stages in a process impact other stages.

Target Audience:

Physicians, physician assistants, nurses, nurse practitioners, EMTs, first-responders, disaster planners, administrators, OTs, PTs educators, case managers, home healthcare professionals, and all other interested healthcare providers.

Course Objectives:

Upon completion of this course, participants should be able to:

- ◆ Discuss updates in medical response to disaster.
- ◆ Illustrate complex interdisciplinary decision making during trauma events.

Registration Fees (Full Symposium: 10.75 Credits):

MD/DO/PA/ Nurses/Nurse Practitioners:	All Others:
Day 1 Only: \$75	Day 1 Only: \$50
Day 2 Only: \$125	Day 2 Only: \$75
Full Symposium: \$185	Full Symposium: \$100

Refunds/Cancellation If notification is received at least two (2) days prior to the program start date, you may choose one of the following:

- Receive a refund, minus 30%; or
- Provide SEAHEC with the name of a substitute who will attend the program in your place; or
- Receive a voucher for 100% of the amount, valid for any SEAHEC program within the next one year.

SEAHEC is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees on the basis of race, color, religion, sex, national origin, age, disability, sexual orientation or veteran's status.

CE Credit Statements and Disclosures:

SEAHEC adheres to NCMS and ANCC Essential Areas and Policies regarding industry support of continuing medical education and continuing nursing education. Commercial support for the program, and faculty relationships within the industry, will be disclosed at the activity. Speakers will also state when off-label or experimental use of drugs or devices is incorporated into their presentations.

Participation in an accredited activity does not imply endorsement by SEAHEC, NCMS or NCNA of any commercial products displayed in conjunction with an activity.

ANCC: SEAHEC is an approved provider of continuing nursing education by the North Carolina Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Total number of **Nursing Contact Hours available: 10.75 (full symposium)**. Partial credit per day will not be awarded. Participants must attend the entire program (per day) in order to receive credit.

CME: This activity has been planned and implemented in accordance with the Essentials and Standards of the North Carolina Medical Society through the joint sponsorship of South East Area Health Education Center (SEAHEC) and New Hanover Regional Medical Center (NHRMC) Emergency & Trauma Services.

SEAHEC is accredited by the NCMS to provide continuing medical education for physicians. SEAHEC designates this live activity for a maximum of **10.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

North Carolina EMS credential levels: Medical Responder, EMT-Basic, EMT-Intermediate and EMT-Paramedic.

While this course is approved for continuing education credit, the final approval of any CEU's accrued from the 23rd Annual Trauma & Education Symposium for individual continuing education credit rests with each local North Carolina EMS System or approved educational institution.
